Atty. Docket No. 8878L  
Amdt. dated 11/11/2003  
Reply to Office Action of 10/23/2003  
Customer No. 27752

**AMENDMENTS TO THE SPECIFICATION**

Please amend the specification as follows:

Please replace the title on page 1 with the following amended title:

**"Moldable Apparatus for Producing Three-Dimensional Articles Of Indeterminate Axial Length, Process Of Making, And Mold For Producing Such Articles"**

Please replace the paragraph beginning on page 4, line 23, with the following amended paragraph:

"The static mixers 10 illustrated in Figs 1-6 are six-stage 12 static mixers 10, although a single-stage 12 static mixer 10 is also within the scope of the present invention. Further, it is to be recognized that single-stage 12 or multi-stage 12 static mixers 10 according to the present invention may be combined in sequence, to produce a static mixer 10 having any desired number of stages 12. While a round static mixer 10 is illustrated, the static mixer 10 according to the present invention may be of any desired cross-section. The static mixer 10 may be designed according to the teachings set forth in commonly assigned U.S. Application serial no. 09/911,774, filed July 24, 2001, in the names of Catalfamo et al., now U.S. Pat. No. 6,550,960 B2, issued Apr. 22, 2003. The stages 12 of the static mixer 10 may be of the same or different length in the axial direction AD, of equal or unequal diameter/cross-section, and have the same number of bars 16 or a different number of bars 16."
